

**CheckFolio:** An innovative new way to store and use checks

In 2012, you will see check orders arriving in a slim, green package, instead of the traditional box. This new packaging is Harland Clarke's innovative way of sending and storing checks called CheckFolio.

- CheckFolio organizes checks in a compact folio
- CheckFolio is wrapped in a slim, green tamper-evident sleeve
- During 2012, Harland Clarke will transition from the current checkbox to CheckFolio
- *Due to the gradual transition, some account holders may receive CheckFolio sooner than others*

Harland Clarke decided to change its current method of sending checks as a result of extensive market research its company conducted. Their research findings inspired them to create CheckFolio.

CheckFolio is...

- **Organized.** All components are packaged together neatly, ready to place in a drawer, filing cabinet or on a bookshelf for easy access and storage.
- **Secure.** CheckFolio arrives in a tamper-evident package and its unique design makes for discreet and flexible storage.
- **Eco-friendly.** The compact and efficient design uses less material and creates less waste - - plus, CheckFolio is recyclable.
