TSYS® Merchant Services

Payment Processing That Fits Your Business

Whether you accept payments online, by phone, in-store, or on the go, we have a solution that'll fit your business.

We have teamed up with TSYS®, one of the nation's leading providers of payment processing services. It's innovative and efficient payment processing solutions are designed to grow your business and boost your bottom-line. You'll get powerful features like:

- Accept credit and signature debit cards, ACH, UnionPay® and verify checks
- Quick and easy electronic application process
- 24/7 U.S.-based merchant support
- Comprehensive 24/7 online reporting
- American Express® card acceptance at the same rate as other payment cards*
- Next-day funding available

Accept Credit and Debit Card Wherever Your Business Takes You

Take control of how you accept payments with our online payment processing management system and payment gateway.

- Real-time transaction processing
- Recurring billing with tokenization for both one-time and recurring (automatic and manual) payments
- Direct swipe via USB with no additional software

Powerful Web-based Management and Reporting Tools

Manage your business and accept payments from any PC that has access to the internet.

- Access detailed activity and transaction reports in real time
- Create custom reports
- Online response to chargebacks and retrievals

Mobile Processing Solutions

Take your business on the road with our mobile app and hardware solutions. And accept payments right from your Apple® or Android™ mobile device.

- Accept Visa®, MasterCard®, American Express®, Discover®, UnionPay®, PayPal™ at the point of sale
- Print or email customer receipts
- Enter inventory items quickly and easily
- Manage tips and tax rates

Competitive Flat Rate Fee

We can simplify your bookkeeping and potentially save you money by combining many of your monthly charges into a single flat monthly fee.

- No hidden fees
- You choose the fee tier based on monthly processing volume
- Cost flexibility allows merchants to grow and still maintain low fees

Data Breach Security Program

TSYS protects your business with the industry's most powerful fraud prevention and security tools.

- An industry-mandated audit for a suspected breach
- Card replacement costs and associated expenses
- Industry assessments and fines

EMV®

Accept EMV chip cards for maximum security and payment flexibility.

- Protect your business from financial liability
- Accept mobile wallets like Apple Pay®
- Secure data transfer through encryption
